36 surveys

(Sightings by others shown in italics)

36 species recorded

New species for the site:

Sparrowhawk
Long-tailed Tit
Garden Warbler
Yellowhammer

Most frequent:	No. of surveys recorded
Kestrel	15
Woodpigeon	13
Goldfinch	13
Pheasant	11
Carrion Crow	10

Largest counts:	Number
Goldfinch	55
Woodpigeon	47
Meadow Pipit	13
Mallard	9
Long-tailed Tit	8

Nine unfledged young hurried from the pond to the eastern boundary ditch.
A pair on Peterken Meadow.
A pair near the SW corner.
1 lushed to the west from close to the main pylon.
A pair just north of the southern Alders - giving calls to young?
A ring-necked male under the southern Alders.
A ring-necked male under the southern Alders.
A ring-necked male near the north east fence - then moved around the site.
A ring-necked male by the west fence
A ring-necked male east of centre went to the south.
A ring-necked male under the southern Alders.
A ring-necked male ring just north of Bodger's Den.
2 ring-necked males on the north-eastern quadrant.
A ring-necked male on the north-western quadrant.
A ring-necked male on the north-western quadrant.
A ring-necked male on the north-western quadrant.
2 present at the edges of the central meadow and uncut areas.
A single bird present.
1 high over though losing altitude as it went to the west.
The head of a male found near the south-west corner. The body was just inside the fence.
1 on the main pylon was chased off to the Hollicarrs by a Carrion Crow.
1 on a north-eastern fence post - a noticeably pale bird.
1 hunting low along the eastern boundary.
1 hunting very low across the site from the Hollicarrs.
1 on the main pylon.
1 on the electricity wires.
2 off the ground near the main pylon.
A pair off the electricity wires.
1 to the main pylon
6 present - 1 on the electricity wires joined another 5 feeding on cut grass - probably eating trefoil.
47 feeding on Peterken Meadow.
1 on the south-west meadow.
2 on the grass near the pond flew northwards to the pines.
7 present - 4 feeding on the central grass area; 2 on the electricity wires and 1 off the southern Alders.
1 on top of Bodger's Den.
10 present - 1 on the central meadow; 3 north of the main pylon; 3 on the western path/fence and 3 in the south
2 present - 1 on the mid-eastern fence and 1 on the electricity wires. 9 predated eggs at the edge of the pond.
4 present - 1 on the eastern fence; 1 on the main pylon and 2 in the centre west area.
7 present - 1 on the electricity; 2 under the wires and 4 on the southern meadow.
1 out of the southern Alders.
4 off the meadow just north of the main Alders.
1 present in the central area.
1 hunting at dusk (Susie Brindley).
1 hunting at 18:00 (Emma Daniels)
1 feeding over the saplings before rain.
1 feeding over the saplings before rain.
1 hovering over the central area.
1 on the electricity wires.
1 on the main pylon then seen hovering over the east central area.

1 hovering over the northern area.
1 hunting over the site and at times perched on the electricity wires.
1 hunting low from east to west.
A male hunting along eastern edge.
1 on the electricity wires.
1 hovering well above the centre west area.
1 hunting over the site.
A juvenile and adult hunting over the area. The juvenile then flew to a post at the entrance to Bodger's Den.
1 juvenile hunting along eastern boundary.
1 hunting over the site.
Male hunting over the site.
1 on the electricity wires.
1 on a southern Alder flew to the ground near Bodger's Den.
1 on a fence post in the north west quadrant.
2 by boundary north of Bodger's Den
2 chasing an unidentified bird into the Hollicarrs.
1 feeding on the grass path by the boundary north of Bodger's Den.
3 present - a pair feeding on the north central meadowgrass and 1 on a fence post in the north west.
1 on the cut meadow close to western boundary.
1 by north-east fence.
1 on the sheep grazed south-west meadow.
1 over low from west to east
1 on the main pylon close to a Buzzard.
1 on Peterken Meadow.
1 on the electricity wires
1 on the centre north meadow.
1 on a pylon
2 off the saplings near the main pylon.
1 off the central grassland area.
1 on a pylon.
A family party of 6 on the main pylon.
1 dead by the centre mid pylon; 1 at north end on of the cut area and 3 on the western cut grass.
2 juveniles amongst the southern Alders.
1 juvenile amongst the southern Alders.
2 on the southern Alders with other passerines.
A pair feeding at the base of the Aders near the main entrance.
1 feeding on the Alders near the main entrance.
A pair in the southern Alders flew eastwards.
2 juveniles amongst the southern Alders.
3 juveniles amongst the southern Alders.
1 perched on the main entrance gate.
1 flew from Hollicarrs to the Alders close to the main entrance.
1 feeding along the eastern boundary.
3 from south feeding over saplings
1 hunting over from the south.
1 hunting low over the site.
5 high over the Hollicarrs. One flew west to hunt over THWM.
A pair on the Alders in the south-west later moved to the nearby gardens.
At least 3 juveniles amongst the southern Alders.
A flock of 8 amongst the southern Alders with other passerines.

A calling bird briefly seen in the southern Alders.
1 singing in the southern Willows.
2 amongst the southern Alders.
A pair with at least 4 young present in the southern Alders.
1 taking food from the saplings in the west central area to a nest site in Hurricane Wood.
A brief call then singing from amongst the mid-west saplings.
1 calling near the A19 gate and 1 amongst the saplings near the mid-central boundary.
1 on the far north saplings and 1 near the A19 gate. Neither birds were carrying food or singing.
2 on the saplings in far north.
At least one adult and 2 juveniles feeding amongst the central saplings.
1 near the A19 entrance.
A female feeding on grass close to the western boundary.
A male on grass close to the western boundary.
A male feeding near the main entrance later flew into the Hollicarrs.
2 present. One of the western grass strip and one with food from there to a house site.
A male by the western boundary.
2 present. One under the south-eastern Alders and one near the A19 gate.
1 off the central meadow.
3 present. Two feeding on the western grass strip and 1 under the southern Alders.
1 perched on a sapling in the central area.
1 feeding under the Alders close to the main entrance.
2 present. One feeding under the Alders near the main entrance and 1 off the ground close to the A19 entrance
1 feeding where sheep had grazed.
A pair arrived from the Hollicarrs to feed on the meadow west of Bodger's Den.
A pair flew off the central meadow to the electricity wires.
A pair amongst the north-west saplings flew to the electricity wires.
1 on the eastern boundary grass strip flew to the Hollicarrs.
2 present. One on the electricity wires and 1 feeding on the north-eastern boundary strip of grass.
2 juveniles feeding on the cut paths near Bodger's Den.
1 collecting food under southern Alders and Hazel. Perhaps a nest just beyond the site.
4 feeding on the formerley sheep grazed area west of the southern damp patch.
1 feeding on the meadow close to the houses.
5 feeding at the edge of the newly formed flash on Peterken Meadow.
A pair feeding at the edge of the newly formed flash on Peterken Meadow.
A pair feeding at the drying out flash on Peterken Meadow.
6 feeding in uncut areas just north of formerly sheep grazed meadow.
8 on the electricity wires - not sure where they came from.
13 amongst the central southern saplings - flew to the electricty wires when flushed.
5 amongst the south-eastern saplings - flew to the electricity wires when flushed.
4 with Pied Wagtails on Peterken Meadow.
7 amongst the central southern saplings - flew to the electricty wires when flushed.
2 present.
1 present.
2 present.
6 present - feeding by shallow pools in south.
1 female feeding under southern Alders.
A pair in southern Alders with other passerines.
A pair caught near the southern Willows.
A pair flew from the southern Alders to the Hollicarrs.
A pair on southern Alders.

A flock of 11 seen moving between the Knapweed near the Alders and the southern saplings.
6 on and off the saplings near the A19 entrance.
A pair feeding on the Alders near the main entrance.
4 feeding on Alders along the southern edge.
An adult and juvenile amongst the south central saplings.
3 present. Two at south end of main western saplings and 1 on the electricity wires.
3 on the electricity wires and later feeding on nearby Knapweed.
42 present. A pair was in the central area and a charm of 40 were feeding just east of the southern willows.
55 on the south-western Alders - several family parties.
7 working north along the western boundary.
7 circled over - probably feeding on Knapweed seeds.
10 feeding on the southern Alders seeds.
A charm of 20 - breaking up at times- feeding on Alder and Knapweed seeds.
A pair feeding on the Alders near the main entrance.
1 on southern Alders with Goldfinch.
A male feeding under saplings near the A19 entrance. When flushed flew to the electricity wires.
A male on the electricity wires flew off to the west.
A male in the centre of the main western saplings.
A pair flew off the site from the area where clearing had taken place around Knapweed.
A male carrying food in central area flew to the northern saplings.

Species seen close to THWM.

Freq	No. (red = max)	Survey Dates
1	9	Jan 6 11:10 10C; calm; sunny
4	2	15 14:40 11C; overcast, clear, wnw breeze.
